WELCOME TO THE HEARD MUSEUM!

My name is ARCHIE. I’m named after the arch shapes you can find throughout our campus. How many can you count?

Look for my artful trail to explore all the fun things we have for you to see, draw and do!
DRAW A DESIGN FOR YOUR OWN PIECE OF JEWELRY!

Some Zuni (ZOO-nee) jewelry is designed with special shapes, patterns and stones. Look closely at the necklaces, bracelets, pins and belts on display to see the different shapes, patterns, plants and stones.

*What shape will your jewelry piece be? What will it be made of? What patterns and stones will you include? Imagine wearing your creation—what will it tell people about you?*

KESHI, FRIENDS!

Want to learn a Zuni word? “Keshi” (it sounds like KAY-shee) means “hello.”
DRAW A DOLL THAT LOOKS AND DRESSES LIKE YOU OR SOMEONE IN YOUR FAMILY.

Artists designed these sculptures to celebrate a Native American tradition of making children’s dolls that looked like their makers or other people in their community. These sculptures are dressed in clothing that Indigenous peoples from the Great Plains and Great Basin areas would have worn for special events.

What is your doll wearing? Your doll might be doing a favorite activity or celebrating a special event. Share your drawing with your family!
MAKE SURE TO STOP BY THE
HEARDLINGS
FAMILY ACTIVITY ROOM
FOR MORE FUN ACTIVITIES!

KEEP EXPLORING AT THE HEARD MUSEUM!
SEE IF YOU CAN FIND:

- an object you think was made for kids
- a house for Native American families
- a room with lots of stars
